Paul Martini

CEO and Co-Founder

As CEO/co-founder of iboss Cybersecurity, Mr. Martini pioneered the award-winning iboss Secure Web Gateway (SWG) and has furthered iboss' position as a leading security innovator with the introduction of FireSphere™ Advanced APT Defense. In addition, Mr. Martini holds over 75 patents and patents pending for the security technology he has developed. Prior to founding iboss, he was with a high-profile electrical engineering firm where he developed proprietary security solutions for clients such as Phogenix, the U.S. Navy and Hewlett Packard, leading the design and implementation efforts for HP's e-tester used in their TIJ print heads. He was also a key contributor at Copper Mountain Networks and Science Applications International Corporation (SAIC), both of which launched successful IPO's. Mr. Martini holds a computer science degree from the University of California, San Diego and has had his work published in prestigious scientific journals including, the *Journal of Foundations in Computer Science*, and *Journal of Analytical Biochemistry*. He is frequently called upon to comment on cyber security issues, and has authored articles and been quoted in a wide range of national publications such as USA Today, Forbes, CSO magazine and others. Along with his brother, Mr. Martini has been recognized for his leadership and innovation, receiving the Ernst Young 2014 Entrepreneur Of The Year™ award in the technology category for San Diego, and one of Goldman Sachs' 100 Most Intriguing Entrepreneurs of 2014. Recently, iboss was ranked #3 for Security Companies in the Deloitte Touch Fast 500. He is committed to the advancement of San Diego as a cyber-security hub, and is a member of the Cyber Security Sub Committee for CAL OES (California Office of Emergency Services) and also serves on the board of the San Diego Economic Development Committee.

Peter Martini

President and Co-Founder

As President & co-founder of iboss Cybersecurity, Mr. Martini has played a major role in developing iboss innovative technology and has helped shepherd iboss' phenomenal growth, since its founding. He co-developed the award-winning iboss Web and Mobile Security products, which are responsible for transforming iboss into a go-to global resource for proven, progressive Web security. He was also instrumental in the introduction of iboss FireSphere Advanced APT Defense, a ground-breaking data

security solution. He has been awarded dozens of patents focused on network and mobile security, and with his brother, has been recognized by the industry with several prestigious awards including, Ernst & Young's Entrepreneur of the Year and one of Goldman Sachs 100 Most Intriguing Entrepreneurs. More recently, iboss was ranked #3 for Security Companies in the Deloitte Touch Fast 500. Mr. Martini is active in the community, serving on the board of the San Diego Economic Development Committee and working on the California Office of Emergency Services Cyber Security task force.
