

Agenda – Day 1, Nov 30th 2026

10.00-10:30: Registration and coffee

10:30-13:00: Status update from operators and round table discussion

13:00-14:00: Lunch

14:00-15:30: Usage Group Update

- Summary and next steps on covered topics, e.g. Indoor Coverage, Drones
- Next topics and Use Case Data Base

15:30-17:00: Presentations related to use cases by Supplier

- 5G and software enabled feature roadmap
- AI and robotic operational support
- Sidelink progress

17:00-19:30: Reception

Agenda – Day 2, Dec 1st 2026

09:55-17:30: Exhibition open

08:00-09:00: Registration and Coffee

09:00-09:15: Opening Notes by Sponsors: Ericsson

09:15-09:25: Welcome address and industry updates: 450MHz Alliance

09:25-09:40: Keynote: Swedish regulator PTS

09:40-09:55: Keynote: Teracom

09:55-10:30: Coffee and exhibition

10:30-11:45: Keynote presentations – Experience in establishing dedicated networks for critical services

- Industrial organization and industry

11:45-12:30: Panel Discussion – Key benefits and challenges of dedicated networks for critical services

- Industrial organization, dedicated operators and user

12:30-13:30: Lunch and exhibition

13:30-14:15: Keynote Presentations – Implementing Mobility and MCPTT

- Focus on operator implementation
- Extended coverage and Indoor solution

14:15-15:00: Panel Discussion – MCX for critical communication

- Operators, suppliers and users

15:00-15:30: Coffee and exhibition

15:30-16:30: Early Adopters in Scandinavia – presentation of innovative solutions

- Critical comms and datacenters
- Offshore communications
- Automated network operation
- router requirements on vessels and vehicles

16.30-16.45: Whiter Paper and Educational program Introduction

16.45-17.00: Wrap-up

19:00-22:00: Dinner / reception

Agenda – Day 3, Dec 2nd 2026

08:30-09:00: Registration and Coffee

09:00-09:15: Welcome by 450 MHz Alliance

09:15-12:30: Standards and Regulatory and Technical work groups

Spectrum update and evolution

Standards and Regulatory Work Group Topics

- Consultations
- Deployments
-

Technical Work Group Topics

- 5G, 5G RedCap, 6G eRedCap
- High power UE
- 380 MHz
- Carrier aggregation
- eMBMS/gMBMS/5MBS
- MCX
- Sidelink use cases and solutions

12:00-12:30 Sum up of the workgroups

12:30-13:30: Lunch
